

CYBER SECURITY PROTECTION

Cyber and Privacy Liability Insurance is a custom-designed insurance policy that protects an organization from liability and first-party costs incurred due to loss of private information.

FEATURES

- » High Limit Liability coverage for defense costs, settlements, judgments and fines
- » First-Party Costs:
 - » post-breach computer forensics
 - » breach response: notification, call-center services, credit monitoring
 - » data and systems reconstruction
- » Optional coverage for Business Interruption; PCI fines; Loss of Funds; Extortion
- » Breach Response Services on call

BENEFITS

- » Peace of mind knowing your business is protected against loss of private data
- » Immediate resources to pay for the significant costs resulting from a data breach
- » Ability to respond quickly and effectively should a data loss occur

ADDITIONAL SERVICES

Lee & Mason can assist your organization with the engagement of a professional outside IT and data security assessment. Outside assessment includes recommendations for hardening private information security.
